Most of this album was made under extraordinary circumstances, during the COVID-19 pandemic of 2020-2021. I'm so grateful for everyone who took the risk of coming to the studio for recording. I'm also grateful for the patience of everyone who worked on this project remotely. It was an interesting way to make a record, but the process was crucial for maintaining my sanity and hope for the future. Thank you to everyone involved, directly and indirectly.

First and foremost, thank you to my wife Meghan Erlene Osborne and our daughter Harriet. Your love and confidence in me is a never-ending source of motivation to be the best version of myself. Thank you for keeping me grounded and inspired during this process.

Thank you to everyone who contributed to the writing and recording of this album: Wolfgang Zimmerman, Dries Vandenberg, Jordan Hicks, Johnny Delaware, Dylan Dawkins, Marshall Hudson, Jordan Reynolds, Mel Washington, Tim Bruns, Christian Chidester, Steven Walker, Kolson Pickard, Camilo Miranda, Meghan Osborne, Ray DeeZy, D\$ Tha Carolina Boss, Billy Ferguson, Ross Bogan, Van "The Good" Robinson, Gerardo Beltrán, Patricio Mijares, Marco Carrión, Kyle Ray Brooks, Mia Al-Taher, Joshua Watson, Zoe Whittaker, Jay Van Raalte, Conor Donohue, Aldrick Williams, and Harriet Osborne.

Thank you to Ben Bridwell, Hunter Park, Charles Carmody, and Creighton Barrett for being the best and loaning us instruments.

Thank you to the entire Susto team for working tirelessly to keep this thing going: Jerrod Wilkins, Cadyn Scott & Tyana Woodard of General Assembly, Chris King & Erin Barry of King Business and Financial Management, Keith Levy, Paige Maloney & Yitzi Peetluk of Wasserman Music, Gijs Cals & Jair Hoogland of Sedate Bookings, Carter Smith of Rollo Grady Music, and last but not least, our esteemed attorney Richard Gabel.

Thank you to the United States government for providing payroll protection and small business loans in a time of crisis. This support was the only way we were able to continue recording throughout the shutdown. Special thanks to King Business and Financial Management for helping us secure those resources.

Also thank you to all the fans who contributed to my livestream performances during the early days of lockdown. Those contributions gave my family security in uncertain times, and gave me the peace of mind to focus on creating Time in the Sun.

Thank you to John Allen, Kim Buie, George Fontaine Jr., and the whole New West team for believing in this album and helping me get it across the finish line. Y'all are amazing!

Thank you to Alex and Nya for loving and supporting Wolfy as we dedicated so much time to this project over the last two years.

Thank you to Annelle Osborne, Ann & Jon Edwards, Mike & Deirdre Redel, John Kenney, Wes & Betsy Fuller, David Betts, Hank Wharton, Kathryn Monroe, Alex & Vanessa Harris, Ryan

Lareau, Ashley Davis, Nick Woodley, Joe Firstman, Taylor Grant, Walker Trull, Scottie Frier, James Hynes, Evan Hynes, and Becca Finley, for your ongoing love and support.

Thank you to D'allesandro's Pizza, Huriyali, Torres Superette, and The Royal American for keeping us fed in the studio. Thank you to Nectar Sunglasses for keeping our eyes protected during all this Time in the Sun. Thank you to Sunshine House for providing a safe and enriching environment for Harriet while Meghan and I were working. Thank you to College of Charleston and the USDA Forest Service for keeping me occupied and intrigued between recording sessions.

Thank you to all of my family and friends, too many to mention, who continue to make my life meaningful. I love y'all more than I could ever express.

Finally, thank you to our Charleston, SC community. We are so lucky to live in this beautiful place surrounded by so much love and support. Time in the Sun could not have been made anywhere but here.

The song "Time, Love & Fun" is dedicated to the memory of my father, Robert J. "Bo" Osborne, Jr., who left us midway through the recording process. I love you Dad, and I miss you everyday.

This album is dedicated to my daughter Harriet, and any future children. I have only been around for 34 years, but I have found life on our miracle planet to be full of mystery and wonder. Life is brutal and tragic, but also beautiful and full of love. I love you, and I am so glad you get to have some Time in the Sun...

Time, Love & Fun

Time is an object in the sky
And it's measured by the rate you pass it by
Every year you go around
Have a party, you wear a crown
And you do it just like that until you die

Love is as fleeting as the wind
If you can catch it then it lets you in
It'll take you all around in the air and on the ground
Well you're lucky just to know what you've found
Lucky to know what you've found

Fun is a three letter word

What it means to you I might never know
Cause I am in my own head
All I know is what you said
And some things like that I just can't let go
Some things once you know, you always know

Time, love and fun, time in the sun
Time, love and fun, time in the sun
Time, love and fun, time in the sun
Time, love and fun, time in the sun

Get Down

Oh, well sometimes I get down
Hey, then other times I get up

Cause I'm on the ground
In the streets, in my hands, in my face

Yeah, the last time you came around
You took me by surprise when I found you

Had me on the ground
In the streets, in my hands, in my face
I don't know, I wanna go
I wanna feel your embrace

I been tryin' to find
Someone else with a little piece of my mind
I know I see it in you

Ah, well sometimes I give up
Yeah, but other times I can't get enough

Cause I'm on the ground
In the streets, in my hands, in my face
I wanna know, I wanna go
I wanna feel your embrace

I been tryin' to find
Someone else with a little piece of my mind

Let's go, I see it in you

Summertime

Cool water rollin' on down your skin
On a long afternoon
Divin' deeper in
You and the backdrop of a blue sky
Make a boy feel ten feet high

Well, it's been so long since I've seen your face
Since I held your hand
Since I made you laugh
In the backseat of your brother's car
We were sittin' on a towel, drippin' dry
And you were my summertime
Sweet summertime

The song was skippin' on a burned CD
You kept singin' it anyway
Like you wrote it for me
You and the backdrop of a blue sky
Make a boy feel ten feet high

Well, it's been so long since I've seen your face
Since I held your hand
Since I made you laugh
In the backseat of your brother's car
We were sittin' on a towel, drippin' dry
And you were my summertime

I should've checked my watch
Cause the time won't stop
And now I know we were only a season

Been so long since I've seen your face
Since I held your hand
Since I made you laugh
In the backseat of your brother's car

We were sittin' on a towel, drippin' dry
And you were my summertime
Sweet summertime

God of Death

I don't wanna think about my father dyin'
I don't wanna hear my mother cryin'
I don't wanna look into the mirror tryin' not to lose my shit

Flowin' like lava down the side of a mountain
Man in the jungle lookin' for a fountain of youth
But he knows that fountain won't appear...fear

If it all ends tomorrow
I had a blast
It looked so beautiful
And it hurt so bad
What a real good time
What a heartfelt world
What a fucked up place

Searchin' for knowledge
Walkin' through fire
Man in a garden filled with desire
I know my name ain't written in your book...look

If it all ends tomorrow
I had a blast
It looked so beautiful
And it hurt so bad
What a real good time
What a heartfelt world
What a fucked up place
What a real good time
What a heartfelt world
What a fucked up place

Be Gone from Me

Back around, been out of town
About 5 years now
Settled down, bought a house
Got a wife and kid now
Self-made, renegade
I can hear it comin'

Be gone from me all you problems of the world
Be gone from me all you people on the other side
It'll rain one day, so they say
And it ain't gonna matter much anyway
So be gone from me all you problems of the world, be gone

Got rich, pretty quick
But it won't last long
It's gettin' late, I need a break
I want one more song
Blood-rage, on stage
Can you feel it comin'?

Be gone from me all you problems of the world
Be gone from me all you people on the other side
Gonna rain one day, so they say
And you ain't gonna matter much anyway
So be gone from me all you problems of the world, be gone

God let it rain down on this long river of pain
Lightnin' bolt to my brain, ow, I'm a self-made renegade

Be gone from me all you problems of the world
Be gone from me all you people on the other side
Gonna rain one day, so they say
And it ain't gonna matter much anyway
So be gone from me all you problems of the world, be gone
Be gone from me all you problems of the world, be gone
Be gone from me all you problems of the world, be gone

Good Right Now

I feel good right now
Outside in the autumn daytime
I love my life
And I feel like I am finally makin' my way
Down the river towards Avalon

Sayin' "ohhh!" to the sunshine
Say hello to the moonrise

What is this celestial body in the sky?
If you can see it then you know that
You are havin' something come to you through your eyes
Is it knowledge, is it art, is it etched on the inside of your brain?
And no matter where you are, can you recall it or does it wash away just like the rain?

I feel good right now
And I know I'm gonna be alright
I wanna be baptized
Yeah, I wanna be a million things
I wanna find a lust for life
And I'm holdin' tight to what I've found out

Yeah, I feel good right now
—And I'm holdin' tight
I've found a better way
—With all my might
I'm livin' my better life
—And I'm tryin' hard
Try to remember the bad times
'Cause I know what they feel like
And I know what I feel ain't bad
No no no, it ain't bad

It's the end of the world and I'm walkin' around in circles girl
It's the end of the day but I'm too stoned to notice
It's the end of the year and I'm so glad we're waitin' here

For everything to bend, better live while you can
Better live while you can man

I feel so good right now
I can see the sun comin'

Life Is Suffering

Show 'em who's boss with your smokers cough
Give it to 'em early in the mornin'
You smell like salt and cotton balls
Baked in the high blue sun
The river runs wide and crooked at times
Swells up with the hurricane rain
I don't mind it doesn't happen all the time
I was born to bare a hurricane
I was born to bare a hurricane

They say you can't foresee the weather
But you can stand in the wind
You can thank the sky when the cotton grows high
Curse the dirt when it's dead again
Curse the dirt when it's dead again

Life is suffering but love and family
Make hard work in the hot sun
Okay when the day is done

Abel killed Cain and took the remains
To drop out deep in the ocean
Came back covered in the poor boy's blood
But nobody said a thing
You know his blood runs wild and crooked at times
Swells up like the hurricane rain
I don't mind it doesn't happen all the time
I was born to be a hurricane
I was born to be a hurricane

They say you can't foresee the weather
But you can stand in the wind
You can thank the sky when the cotton grows high
Curse the dirt when it's dead again
Curse the dirt when it's dead again

Life is suffering but love and family
Make hard work in the hot sun
Okay when the day is done

Resolve It

Save a life, start a war
It's not alright, but it was before
You can climb a mountain
You can sail the sea
All the way to the middle with me
You can find that somethin'
You've been lookin' for
A lightnin' bolt from above

Whatever word I say
I resolved it, I resolved it
No never would I say
It resolved in time
Never would I say
I resolved it, I resolved it now

A sinking ship, better swim for shore
Feet in the sand, I'm saved I know it
In the middle of nowhere
Surrounded by nothin'
What is the point of that life?
When you wanna be somewhere
You gotta be somethin'
You've got a story to find

But never would I say
I resolved it, I resolved it

No never would I say
It resolved in time
Never would I say
I resolved it, I resolved it now
Never would I say, that it all worked out

Mother of the World

She is Mother of the World
I had a hole in the middle but she filled me up with love
Vagabonds across the earth
But you ain't got nothin' if you ain't got a heart full of love

Lay me down in a field of roses
Touch me with the icy hands of death
I've seen with my own eyes
The love that's synthesized
I know I much prefer my natural girl

Hurricanes and landslides
If I' been one then I' been 'em both for you
Airplanes in the sky
Yeah, I'm comin' home and I'm comin' home for you
I'm comin' home, cause I wanna be close to you

Lay me down in the cool cool waters
Bury my soul deep in a sea of pain
I've seen with my own eyes
That sweet by and by
I know I much prefer this natural world.

She is Mother of the World
Had a hole in the middle but she filled me up with love
Had a hole in the middle but she filled me up with love
Well you ain't got nothin' if you ain't got a heart full of love
No you ain't got nothin' if you ain't got a heart full of love

Double Rainbow

When I was young I was told that
Noah dropped down in his boat on top of a mountain
God gave him a rainbow to signal that he would not
Destroy the earth by floodin' it again
But ever since I was young I been watchin' the world
And it feels like the whole thing's burnin'
All I need is a little reaffirmation
He ain't tryin' to destroy us all again...
By fire this time!

So send me, won't you send me down a double rainbow
So I know that you are you and you are listenin'
So I know that you are you and there at all

Rich men say you better pick up
And get your body back into workin'
Don't mess around with psychedelic drugs
If we catch you with that stuff we'll put your ass in prison

So I told 'em, I said "You, you ain't never been a poor man's child
But me, I'm in the streets and I'm runnin' wild
I had an AK-47 but I traded it in for a smile, I went wild
'Cause I'm a psychedelic priest on my best days
And I'm a real world beast on the rest days
I'm a downtown bitch in the best way
And I been workin' like a dog"

I said "Hell naw!" —me and the children of the two rainbows
I said "Hell naw!" —can you feel it if it's not your bottom line?
I said "Hell naw!" —when fate is speakin' and she don't speak softly
Well, I hope that you've enjoyed your time in the sun

All Around the World

All around the world
People singin' out loud
About what's goin' down
But a new day is comin'

All around the world
I been singin' out loud
They caught me spinnin' in a crowd
But a new day is comin'

All around the world
People singin' out loud
About what's goin' down
They say a new day is comin'
