**THE PINK STONES TO RELEASE DEBUT ALBUM *INTRODUCING...THE PINK STONES* APRIL 9th VIA THE NEW WEST RECORDS IMPRINT NORMALTOWN RECORDS**

**UNDER THE RADAR PREMIERES “BLUEBERRY DREAM” VIDEO TODAY**

The Pink Stones will release their debut album *Introducing...The Pink Stones* on April 9th via the New West Records imprint Normaltown Records. The 10-song set was produced by Henry Barbe (Drive-By Truckers, Deerhunter) and was recorded at Chase Park Transduction and the Barn in Athens, GA. Mixing elements of classic cosmic country, raucous rock'n'roll & indie rock, and fresh humor & heartaches, The Pink Stones are authoring a new chapter in the annals of Cosmic American Music and are within a new wave of young artists from the same college town that gave the world R.E.M., The B-52's, Drive-By Truckers, Pylon, The Elephant 6 Recording Company, Widespread Panic, Vic Chesnutt, The Whigs, and more.

Today, **Under The Radar** has premiered the video for the first single, “Blueberry Dream,” saying the band “...conjures an other-worldly mix of country, indie, and barn-storming rock on their upcoming debut...The Pink Stones already are a fresh, left-of-field addition to the world of cosmic country.” Frontman Hunter Pinkston says, “‘Blueberry Dream’ is a tune we shuffled in and out of our set for a while before the pandemic. It’s got a little psychedelia, a lotta country, and a nice pop floor to stand on.” Filmed entirely on Super 8 Film, the video was directed by the band, Rosalia Parra, Dylan Newling, and features animation by the Australian artist Rosie Kelly.

Especially notable on *Introducing...The Pink Stones* is the band’s ability to intertwine joy, heartache and self-deprecating humor in songs. It’s a classic hat trick of country music that is all too easy to overplay and seem forced by modern Americana aspirants, but one which the band crafts perfectly. The end result is a fresh and exciting debut album from a great band.

While their average age is only 25, the band also features the music veteran John Neff, one of the founding members of the Drive-By Truckers, bringing his experience and sense of legacy to the group. The Pink Stones are Hunter Pinkston (Vocals, Guitar), Will Anderson (Piano, Vocals), Adam Wayton (Bass), Logan Brammer (Guitar, Vocals), John Neff (Pedal Steel), Jack Colclough (Drums).

*Introducing...The Pink Stones* will be available across digital retailers, compact disc, as well as a limited edition mix of random colored vinyl pressed at Kindercore Vinyl in Athens, GA.

*Introducing...The Pink Stones* is available for pre-order NOW via NEW WEST RECORDS.
